The deterioration of the world continues. The general population is continually under psychological attack. The powers that be want the inhabitants of the planet to live under constant fear, from pestilence, climate change, war and famine. The plans of the planners will not fail. We will ultimately destroy ourselves.

Europe will be destroyed by war, possibly nuclear war. When China invades Taiwan, another war will occur. The United State will breakdown into a civil war and will be neutralized. This will occur when the powers that be attempt to remove weapons from the population. The difference between the USA and other countries is that the United States has a constitutional right to bear arms. When the politicians try to remove guns, the people will fight back to preserve their right to life. The United States is controlled by far-left radicals that have allowed a massive invasion of the United States at the border. They have destroyed the public school system and allow children in the schools to be at the mercy of psychotic killers without any police protection. The job of the police is to stop parents from going into the school to save their own children.

They will drive the price of gasoline so high people will be unable to drive cars. The utopian society the powers that be have planned can only occur with the world depopulated. The majority of people do not count. That is why politicians cheer when an abortion law passes that murder a child at nine months.

The European Union does not care about people at all. They want complete control of their lives. The present ruling powers in the United States care nothing about the American people and are doing their best to destroy the nation. Take away guns and you get Nazi Germany with concentration camps and death. The Federal Reserve Banks printed billions, possibly trillions of dollars that help fuel inflation with the rising price of gasoline and diesel fuel. The economy will collapse worldwide.

Notes October 18, 2023

Everything is a Lie.

Everything you are told by the media, the government, financial experts, scientists and other controlling influencers is a lie.

I listened to a financial and economic expert the other morning on television. His view was that the current administration is doing a wonderful job helping the global middle class. However, the opposite is true. Gas prices are \$80 per barrel. Food prices are higher by a large percentage. There are supply chain gaffs and shortages of goods and services. Labor statistics are completely off base. The Covid vaccine does not work and boosters are necessary. They lie about the number of people vaccinated and the deaths caused by the vaccine.

Private small business was burned out in major cities during the Antifa and BLM insurrection during the summer of 2020. The middle-class entrepreneur is being destroyed by government policies.

There is hard evidence of massive election fraud on November 3, 2020. A small sample is the evidence in Maricopa County Arizona where there were 85,000 fraudulent votes. That is only one county in the entire country.

The open borders are a travesty of justice, not only to the citizens of the United States but to the poor immigrants that are being used to infiltrate and invade the country. How many of these immigrants are gang members and terrorists? There is no way of knowing.

The elites push a climate agenda which is a tax on the air we breathe. There is climate change. It has gone on for millions of years. The earth is a planet that revolves around the sun. The sun gets hotter or cooler. The earth rotates slower or faster. Therefore, the climate changes.

Air pollution has caused lung disease and cancer. But pollution controls are far better now than they were 50 years. The United States has done a good job cleaning the air. Other industrial countries have not.

The current administration is destroying the country. They are raising taxes on the middle class. The goal is to make everyone poor. They have open borders that overwhelm the system that will eventually cause a breakdown of law and order. They lie on television saying there is no crisis at the border when there is visual evidence of thousands of illegals under a bridge.

They have unconstitutional vaccine mandates for a virus that is less deadly than other forms of flu. They divide the country by race, religion, economic class and political views. They want abortion at any time during the nine-month gestation period and immediately after birth.

The administration comes on television and says a 3.5 trillion dollars spending package will cost \$0. They think the American people are not capable of addition or subtraction.

This is a hate filled, diabolically evil government of biblical proportions. There is no believe system other than power, control and dominance of the masses. They withdraw from a war and leave \$85 billion worth of equipment. The prior democratic administration gave away \$150 billion in cash to a government that wants to destroy the United States and Israel.

The insurrection in the USA is from the left and has been going on for a number of years. They destroyed cities and high jacked an election. The insurrectionists are the people presently in control of the government. The election was a coup. The speaker of the house is in control of the capital police that allowed rioters into the Capitol Building that occurred on January 6, 2021.

The government, the media, the globalists all think that the American people are stupid and lazy. The American people are hard working and have good intelligence. But if people continually watch television and other media outlets, they will be brainwashed into giving up their FREEDOM. They don't want you to drive your own car, own your own home, or own your own business.

The Republicans and other right-wing leaders go on television and talk and talk and do absolutely nothing to protect the American people.

The politicians on the left and right do not care about the citizens of America. They are bought and paid for by powerful lobbies such as the pharmaceutical lobby.

If the Covid virus doesn't kill you, perhaps the vaccine spike will. If that does not kill enough people than maybe there will be a war that kills millions of people. Whatever is going to happen, Americans have to take care of themselves. The government wants to control our lives from cradle to the grave.

The controllers disregard the reactions of the American people at school board meetings and major sporting events. They take away individual identity by having people wear masks. Masks lower the IQs of our children. Children are forced to wear masks in school and cannot read the faces of their fellow classmates and teachers.

The government wants to see our individual bank accounts and monitor any transaction over \$600. This is a direct violation of our individual civil rights and liberties. We have a right to privacy and conduct personal business.

The people that control our country despise the average American. They will stress the system with immigrants, supply chain disruptions, outrageous gasoline and food prices. The goal is to destroy America.

These controllers would like us to have a civil insurrection so we can kill each other. It will be easier for them to control the population with most of us dead.

The power mongers may cause another global war. They do not care how many people die from war, pandemics, vaccines, starvation, abortion or any other means.

The global elitists are liars, thieves, molesters and vicious murderers. They want to enslave the entire population of the world by intimidation and force.

The present administration teaches a racist philosophy in academia similar to the Nazi propaganda against the Jews in 1930's and 1940's Germany.

Now in October of 2023, innocent Israeli civilians have been slaughtered by Hamas. Are we at the End of the Trail?

Notes April 28, 2026

Another assassination attempt was made against President Donald J. Trump by Cole Tomas Allen on Saturday April 25, 2026 at the journalist dinner Hilton Hotel in Washington DC. The president is despised by 95% of the media and the intellectual elite of the United States and the world. A constant barrage of hate and lies against the president has an effect on the population that follows the news, CBS, NBC, ABC, CNN, MSNBC, the Washington Post, New York Times, Wall Street Journal, Economist and other publications.

A highly intelligent 31-year-old man was so brainwashed that he threw a promising life away with an assassination attempt against the current president and his administration.

The goal of the left in the United States is to overthrow the government. The Marxist, Leninist, Socialist, Communists do not want a constitution, a democratic republic or United States. They have infiltrated our government from the aldermen and councilmen in cities to the Congress in Washington DC. They foment racial bigotry, hatred and insurrection in the media.

The first assassination attempt on Donald Trump was on July 13, 2024. Trump was grazed with a bullet and an innocent man was murdered. Others were injured. The assassin, Thomas Matthew Crooks, was shot and killed by government snipers. Other information on the attempt and shooter was quickly covered up. A second attempt on Trump was September 15, 2024 at his West Palm Beach Florida Golf Club by Ryan Wesley Routh. The secret service and the Marin County Police got the perpetrator. The criminal was prosecuted and sent to prison. The third attempt was stopped by the secret service after Cole Allen shot a secret service agent in the chest. He was tackled by agents, disarmed, arrested and arraigned for prosecution

The shooters Cole Allen and Ryan Routh are probably lone gunman. Crooks on the other hand may have been part of a conspiracy.

I made a short list of assassins and would be assassins. John Hinckly Jr. shot Ronald Reagan on March 30, 1981 at the Hilton Hotel, Washington DC. Ted Kaczynsky the Uni Bomber, a PHD. He killed innocent people with his mail in bombs. Stephen Paddock killed 60 people and injured 867 others in Las Vegas, Nevada on October 1, 2017. Quite impossible for one shooter to kill and injure all those people. Luigi Mangione another intelligent young man. He shot and killed the CEO of United Health Care on December 24, 2024 in New York City. Tyler James Robinson, he shot and killed Charlie Kirk on September 10, 2025 in Utah. Robinson is currently on trial.

Then we have Lee Harvey Oswald who was a patsy for the killing of President Kennedy on Friday November 22, 1963. I was a sophomore in high school at home that Friday watching television at 1:30 PM Eastern Time. On the following Sunday I saw Jack Ruby kill Oswald in cold blood on live television. The murder of Kennedy has been covered up to this day 63 years later. My conclusion: It was impossible for Oswald to kill the president with that piece of garbage Italian rifle.

The USA is currently at war with Iran. The president and his cohorts should do what is necessary to end the war, declare victory and come home. Let the rest of the world take care of the Straits of Hormuz. They need the oil; the United States does not.
